

Alignment

The Openpay logo needs to be centre aligned with the text and having 6px spacing in between.

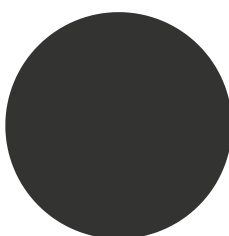

Colour Palette

Follow the Openpay colour guide to create a payment button that reflects our branding.

Aussie Amber
RGB: 255r, 184g, 28b
HEX: FFB81C

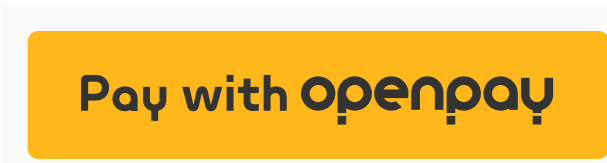

Granite Grey
RGB: 51r, 51g, 50b
HEX: 333332

Payment Buttons

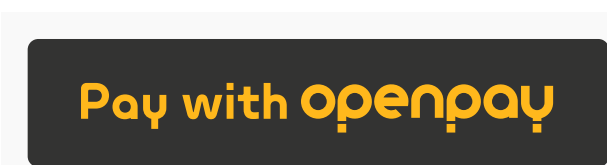

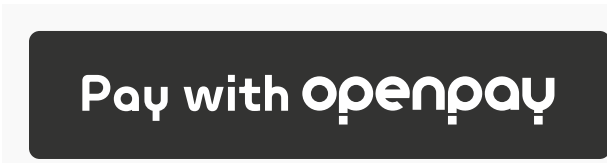

Openpay provides two colour schemes for payment buttons: Amber and Granite Grey, Black and White to suit your different needs.

To ensure the legibility, the minimus width constraint is 218 pixels and maximum width constraint is 380 pixels.

Amber with Granite Grey

Granite grey with White

Customisation

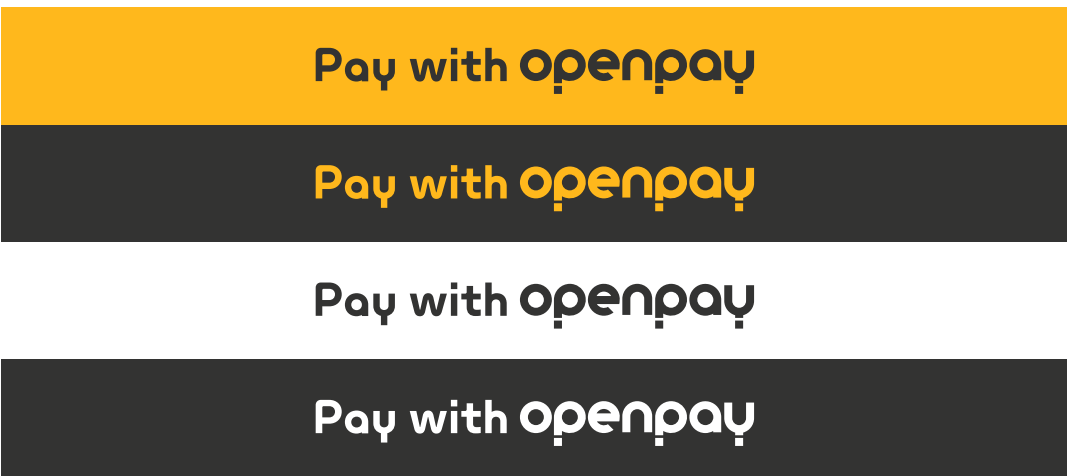

You can customise the radius and the height of the payment button to align with the components in your app by using the provided assets separately.

* Please avoid using non Openpay colours and follow the guidelines when create your own buttons.

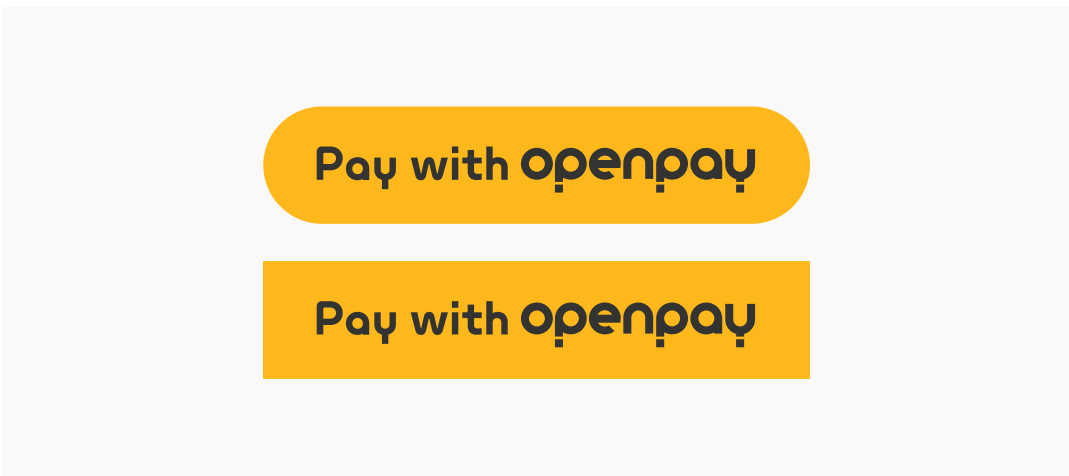

Minimum left & right padding: 20px
Top & bottom padding: 10px

Required assets

Asset can be downloaded and saved as SVGs

Examples

Badges

The Openpay badges can be scaled to suit the needs of your app. To guarantee the legibility, the minimum width constraint of the badge is 75 pixels.

The Greyscale badges will need to be used in transparent background. Minimum width of the logo is 80 pixels.

Amber with Granite Grey

Up to 4 interest-free payments.

Light theme

Up to 4 interest-free payments.
